Igor Vida has been a member of the board since 1997 and until July 1st, was responsible for retail banking and the treasury.

Igor Vida

The new member of the board was named as Michal Liday. Mr. Liday worked as Director of Private Banking at Tatra banka for 5 years and before becoming Director of the Branch Management division.

AMROP HEVER
GLOBAL EXECUTIVE SEARCH

In mid-June the consulting company Jenewein & Partners became **AMROP**

HEVER Slovakia – Global Executive Search. "Due to it's membership of the largest executive search group in the world – The Amrop Hever Group (TAHG), Jenewein & Partners has become a strategic global office that handles international business transactions and therefore it's former brand name was no longer sufficiently apt in this situation," said Mr Martin Novotný, Senior Partner and Co-Founder of Jenewein & Partners. The company has become a leader in the Central and Eastern European regions thanks to the dynamic economic growth that Slovakia has been experiencing for several years and also thanks to being open, active and using initiative and courageous business plans. "Introducing the global brand means meeting the expectations of our business partners. It is also proof of our permanent and uncompromising dedication to the highest quality, international standards and highest ethical principles in providing tailor-made consulting solutions," adds Mr Martin Krekáč, Senior Partner and Co-Founder of Jenewein & Partners. The portfolio of services within AMROP HEVER Slovakia – Global Executive Search is still focused on three core consulting areas: Executive Search, Board Advisory and Audit Management, enriched by diversified Human Capital solutions linked to the core business. AMROP HEVER Slovakia Global Executive Search is governed by the board consisting of company owners – Mr Martin Krekáč, Mr Martin Novotný and Mr Radomír Mako, who until recently was Managing Partner of Jenewein & Partners but through the course of re-branding became equal Senior Partner and Co-Owner of the company. "We have taken advantage of the re-branding opportunity to redefine the internal structure of the company and on strengthening personnel within the company. Within the organizational structure, we have built two equal professional teams – a team of managers and consultants and a strong team of researchers and analysts. Right under board level we have also created a new Business Innovation Practice (BIP) which acts as the group's Business and Innovation Incubator headed by the Chief Business Officer with the task of strengthening our market share in all relevant segments through the launching

and co-ordination of innovative solutions and new business opportunities," said Mr Radomír Mako. The Board at the general assembly has appointed former Partner of Jenewein & Partners, Mr Igor Šulík to the position of Managing Partner. "With the new brand our business partners have the chance to make use of the extensive thirty-year experience of global leadership that is present in 51 countries and for whom some 800 professionals work. Through the co-operation with a leader in the Slovak market and thanks to its transformation they also gain simple access to the fastest globally growing markets of the Central and Eastern European region. The change of the brand from Jenewein & Partners to AMROP HEVER Slovakia – Global Executive Search then means much more than just re-branding," added Mr Igor Šulík, new Managing Partner of AMROP HEVER Slovakia – Global Executive Search.

For the last week of April (23-28 April 2007), **Dell Bratislava** and it's PR department scheduled a number of internal activities intended to present various ways to keep a healthy life style without forgetting any important aspects. Some of the activities and offers might be seen astraditional in terms of Dell Health Weeks, but new ones were also added this year. They will continue to be available for Dell team members throughout the year at the new Wellfit center on the 1st floor of the new building of Dell's European Business Center in Bratislava. Plus, there were special bonuses that Dell tries to incorporate into each Health Week – an open discussion with specialists, free copies of Health magazine at the reception, and miscellaneous Wellfit club offers along with competitions for the best treadmills runners. This year set a new record in the amount of massages provided, bringing relief to over 1,000 sore necks of the Dell team; over 6, 500 glasses
