

## Press Release

**AJG – Amrop Jenewein Group is proud to announce that it has become the first Human Capital and European Affairs consultancy group in Slovakia to be credited the international certificate of ISO 9001:2000.**

Integrated Consultancy Group **AJG - Amrop Jenewein Group** has on December 1, 2005 obtained an international [Certificate of Management System Standard with Dutch accreditation by ISO standard 9001:2000](#) issued by **Det Norske Veritas** in service range of: Complex advisory in the area of human capital and management, including search & selection (Executive Search, Recruiting & Selection), psycho-diagnostic assessment and appraisal of human resources (management and personnel audits and analysis), projects focused on management and development of human capital, education and training programs (including advisory on career development with focus on increasing employability on the market - outplacement), creation of management structures and systems and compensation planning, administration of personal data (personal databases), European Affairs consulting, lobbying services, public and non-profit sector consulting.

For AJG – Amrop Jenewein Group going through ISO certification has not been a primary tool for improving internal processes. Being already part of The Amrop Hever Group as well as member of prestigious international professional associations such as AESC or SEAP, AJG – Amrop Jenewein Group already operates on the basis of the highest quality standards and ethical principles without which it could not deliver the maximum benefit to its clients.

Being holder of the international certificate is for AJG – Amrop Jenewein Group not only a matter of prestige, but in a way also an “obligation” towards its clients who operate under the ISO quality management system and who request that their business partners are being similarly certified for their compliance with the quality standards defined by ISO norm.
