

PRESS RELEASE

January 9, 2023

From 1 January 2023, Martin Krekáč, chairman and founding partner of the consulting group **Jenewein Group** and company **Amrop in Slovakia**, develops **Strategic Leadership, Executive Search & Background Checks Services** with his team under his own brand and business name **Jenewein Executive**, s. r. o. (Amrop Slovakia, s. r. o. until December 2022).

As of 1 January 2023, the global **The Amrop Partnership** is represented in Slovakia by the consulting company **Amrop Partners**, k. s., operating in the field of **Executive Search, Leadership & Board Services**, represented by the current six partners – Igor Šulík, Ladislava Molnárová, Michal Lukáč, Marek Hradílek, Matej Taliga and Rastislav Mackanič.

"We thank Martin for the opportunities in the past and for enabling the further development of the Slovak Amrop story by people who have filled countless leadership and management positions under this brand over the years and implemented hundreds of consulting projects. Together with our colleagues – partners and other collaborators, we look forward to our joint future and further development of the Amrop brand and the quality of services it represents. The uniqueness of our own business model built on equal partnership and shared values, the depth and diversity of the experience and expertise of six partners, and the quality and professionalism proven over the years, based on which clients repeatedly and gladly cooperate with us, are a good input for writing the next chapter in the story of the Amrop brand in Slovakia. We also positively perceive possible future cooperation with companies in the Jenewein Group consulting group's portfolio although no longer as connected entities but as cooperating entities," Igor Šulík stated.

Amrop entered the Slovak market in 1999 through a partnership with the consulting company Jenewein & Partners, s. r. o. (1990), subsequently as part of the Jenewein Group consultancy. *"I consider leaving the global Amrop brand to a new generation of partners as a mutually positive change. Consultants who have grown up in our group have got the best prospects for continuing in the Executive Search consulting, where we are among the leaders on the Slovak market. For Jenewein Group, which celebrated its 33rd anniversary on the Epiphany this year, the constant and uncompromising pursuit of the highest quality professional standards and adherence to ethical principles in the provision of tailor-made consulting solutions is a matter of course. The position of a strong independent Central European player with a global reach will allow us to respond more flexibly to market needs and bring more opportunities to our clients. It frees our hands for strategic Executive Search and Background Checks assignments and for creating partnerships that improve the quality of our portfolio of consulting services. Subsequently, it strengthens our market share in the*

relevant segments through the creation of innovative solutions and new business opportunities without any restrictions," Martin Krekáč concluded.

The consulting company **Jenewein Executive** solves the challenges of finding leaders and of managing talents and organizations. It shares the ambitions of clients, candidates and partners in the determination of providing them with the best **Strategic Leadership, Executive Search & Background Checks** services. Based on 30+ years of experience, depth of expertise and the highest quality standards of the Association of Executive Search and Leadership Consultants (AESC), it delivers a range of leadership solutions with high added value. It focuses on long-term relationships, not transactions, so many of them span over decades. It supports organizations in moments of strategic importance, from CEO succession planning to generational change in family businesses to the creation of bold and balanced executive and supervisory boards. Its team operates in the region of Central Europe (SK – CZ – AT) as part of the one-stop-shop consulting group **Jenewein Group** offering comprehensive **Strategic Leadership, Management and Public Policy services**.
