

## Brand of Excellence. Refreshed and ready for 2010.

As a valued client, we want you to be the first to know about the exciting changes we are making to our brand.

In the beginning of 2010 our company name has become Amrop Slovakia. This, together with our new image, is a bold expression of the global knowledge and expertise we bring together to serve your need for talented leaders.

Our new image reflects our strength as part of the Amrop network, present in 57 countries and united by our Context Driven approach to executive search. And it reflects the access you have to firms around the world that share our values, offer deep insight into their markets and provide access to a global pool of talent.

For 20 years, we have provided you with the right leaders to help your business to succeed. We look forward to continue to serve you. And we invite you to visit us at [www.amrop.sk](http://www.amrop.sk) to see our new brand and Context Driven story. Please let us know what you think.

All of us wish you a prosperous 2010!
